THE TECH

VOL. XXVI. No. 22 BOSTON, MASS., WEDNESDAY, NOVEMBER 14, 1906 PRICE THREE CENTS

LOWELL INSTITUTE

Professor Wendell of Harvard Will Give Eight Lectures on France.

The third course of the Lowell Institute this year will be given by Professor Barrett Wendell of Harvard University. His subject will be "Contemporary France." The course will be composed of eight lectures on the following subjects: "The Universities," "The Structure of Society," "The Family," "The French Temperament," "The Relation of Literature to Life," "The Question of Religion," "The Revolution and Some of its Effects," "The Republic and Democracy."

Professor Wendell is an authority on his subject, and cannot fail to present both an interesting and instructive course. Professor Wendell is one of the most brilliant of the younger academic teachers in America. Since he began teaching at Harvard in 1880 he has had great influence, not only upon the study in his own classes, but upon the work in English literature done at other universities and colleges throughout the country.

He has published nearly a score of books and magazine articles, all of which have been remarkable for their scholarship and readability. Besides his best known book, the "Literary Review of America," Professor Wendell has written a number of books on American colonial times, a book on English Composition, a "Study in Elizabethan Literature," "Raleigh in Guiana," a play and several novels, of which the best know are "The Duchess Emila," and "Rankell's Remains."

Tickets for the lectures may be obtained through a mailed application to the Curator of the Lowell Institute, or from the office of that institution on the day of the first lecture.

ARCHITECTURAL EXHIBIT.

Prominent among the designs on exhibition by the Boston Architectural Club in the Lecture Hall of the Boston Public Library are four drawings by J. L. Pascal, belonging to the Institute. They are the original drawings made by Mr. Pascal in the competition for the restoration of the Hotel de Ville in Paris after its practical destruction by the "Commune." These drawings were presented to the architectural department, and form the latest acquisition to its gallery.

The exhibit also contains a group of eight drawings by members of the class of 1905, submitted in the 1906 Traveling Scholarship Competition. These are designs for a State Automobile Club by M. H. Whitehouse, Ida A. Ryan, Lewis C. Clarke, Jr., and F. S. Wilcox.

The exhibit as a whole is an exceptionally fine one and contains, beside the usual designs by members of the club, a large number of drawings by architectural students at Harvard University. There are also a number of excellent examples of work in bronze and in granite by well-known Boston designers.

FIELD DAY PROSPECTS.

Sophomores Stand Good Chance of Winning Relay and Tug-of-War and Will Put a Strong Football Team into the Field.

With the closer approach of Field Day, the Sophomore teams have been growing stronger and stronger. Up to within a few weeks it seemed that the Freshmen would walk away with all three events, but now the prospects have entirely changed. The Freshmen set too hard a pace at the beginning and have consequently gone a little stale. On the other hand, the Sophomores had a bad start, but are now strong in all departments of the games. This is especially true of the tug-of-war.

The Freshmen started with a large, even squad, but this has fallen off so much that, when the team was picked last week, the twenty-five men composing it were chosen from a list of thirty-two names. This squad of men has been working hard and with determination to make good, but has made little perceptible progress in the last couple of weeks.

The Sophomore squad has been growing larger as time has passed and the men have worked with such a quiet determination that their prospects are fine. Last year's experience has been a great aid to them. All in all, the chances for a Sophomore victory seem very bright, and unless the Freshmen have the usual Freshman luck with them, 1909 should get the two points for this event.

Little is known about the relay teams, for they have been keeping themselves and their proceedings hidden. It is rumored, however that both teams are fairly consistent, and the average times rather low. The Sophomore team will be practically the same that ran last year, but it has improved greatly over last year's form. It will undoubtedly do the class more justice than it did last Field Day. Although so little is known regarding the two teams, it seems safe to say that the Sophomores have another good prospect in this event. It is known that, with one or two exceptions, the Freshman team has no fast men, and the large number of men on the Sophomore team who can make good time makes it only the more evident that the Freshmen are up against a hard proposition.

As usual the football game will be the most important event of Field Day. Both teams are receiving the last finishing touches. The line-ups have been settled, but eleventh-hour changes may well be expected. Both teams are confident of winning but the prospects seem to favor a Sophomore victory. The aspect of the situation has changed considerably in the last few days, the Freshmen being favorites up to last Saturday, when their poor exhibition at Worcester made their chances of winning in the championship contest quite remote. The Sophomores on the other hand had their slump in the mid-season and are now developing into a fast, strong team on both the offence and defence. They will go into the game with the confidence of a well-trained team.

The development of the Freshman team up to four days ago was everything that could be desired. A team had been formed that was able to tie a strong team like Dean Academy, and defeat by a good score the fast Lowell Textile aggregation. This showing had inspired confidence among the Freshmen, and many of the upper classmen freely predicted that the Freshmen would carry off the day in football with ease. The only weak point in this team was the work of the line, none of the men being able to get low enough to be effective on the defence. This fault was being eradicated rapidly in a few just before the Worcester game. The trouble did not come, however, from this source, but from a complete demoralization of the backs on the offence, as a natural consequence of which the entire team went to pieces. Only by the most strenuous efforts will the team be in any kind of shape to play the Sophomores, and if there is no improvement the football game on Friday will be an easy victory for 1909.

The Sophomores on the other hand passed through the first of the season with very indifferent success, being defeated by weak teams and showing marked weaknesses in every game. The realization of what Field Day means to the class as a whole has spurred them into increased efforts, and practise on the Oval in the last few days has been of the most strenuous kind. The spirit and dash which had been lacking in both offence and defence has appeared, and the line men have at last been taught to hold and charge.

The team has a number of very good trick plays, and they are run through in a manner that will be very effective on Friday. The team, however, has been crippled quite badly, Captain Godfrey having been laid out with a very bad knee. He was injured last Friday, and has since been on crutches with no signs of improvement. This loss will cripple the back field to some extent, but a substitute has been working in his place, and has been showing up well. This loss has had the effect of making the Sophomores more desperate than ever, and although they may go into the game Friday with a crippled team, they will put up a fight that will more than offset the loss.

Y. M. C. A.

Dean A. E. Burton will address the Technology Christian Association Meeting which will be held on Thursday, Nov. 15, in the Parish Hall of Trinity Church from 1.30 to 2 P.M. All Tech men cordially invited.

President Pritchett will preside at the meeting of the National Society for the Promotion of Industrial Education to be held at Cooper Union on Friday evening, November 16.

CALENDAR.

WEDNESDAY, NOVEMBER 14.

1.00 P.M. Freshman Class Meeting in 6 Lowell.

THURSDAY, NOVEMBER 15.

1.00 P.M. Ohio State Club Meeting.

1.00 P.M. 1909 Class Meeting in Huntington Hall.

4.00 P.M. Banjo Club Rehearsal in 33 Rogers.

FRIDAY, NOVEMBER 16.

2.00 P.M. Field Day at Tech Field.

8.00 P.M. Tech Night at Tremont Theatre.

FACULTY NOTICES.

Corrections will be received for the Catalogue, for the last half of the alphabet, until Wednesday, Nov. 14.

Metallography.—Lectures on Metallography begin Monday, November 19, at 4 P.M., in 2 Rogers.

NOTICES.

Ohio Club.—Meeting of the Ohio Club on Thursday, November 15, at 1 P.M. in Rogers. Room to be posted.

Found.—Two raincoats and five umbrellas. Apply to F. H. Rand, Bursar, or at the Cage.

Marshals. — The following marshals will report to R. W. Parlin at the Tech Field at 1.30 P.M. on Friday to act as ushers: D. G. Robbins, '07; A. Macomber, '07; E. F. Whitney, '07; H. C. Elton, '08; W. B. Given, '08; K. Vonnegut' '08; H. McCready, '08.

1910 Class Meeting.— There will be a meeting of the Freshman Class in 6 Lowell today at 1 P.M., for the purpose of making final arrangements for Field Day. It is hoped that every Freshman will make an effort to attend this meeting, the most important of the year.

CROSS COUNTRY ASSOCIATION.

At a special meeting of the Cross Country Association in 26 Rogers, Monday, Mr. Ames '08, was elected Chase Captain for the coming year to succeed A. R. Hunter '08, who has left the Institute. The association tendered a vote of thanks to Hunter for his services, and directed that this vote be communicated to him by letter through C. S. Clapp '08.

President L. Allen '07, gave a short talk on the Fall handicap cross country run to be held over the West Roxbury course on Dec. 1. O. H. Starkweather '07, announced that all those who wished to try for the managership for the coming year should see him personally, or apply to him by note left at the Cage.

Mr. Ames '08, started a lively discussion on the means of arousing interest in the weekly runs. The runs this Fall have not been at all well attended, the average number starting being much below that of the runs last year. A motion was passed to appoint one man from each class to arouse interest in the runs. The following were appointed to attend to this duty. O. H. Starkweather '07; M. Ames, '08; J. N. Stephenson '09; B. Huber '10.

It was also voted to hold a Hare and Hound run over the West Roxbury course on Saturday afternoon, Nov. 24.

THE TECH

Published every Monday, Wednesday, and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Entered as second-class matter October 6, 1904, at the post office at Boston, Mass., under the Act. of Congress of March 3, 1879.

In charge of this issue: M. E. DENNY, 1908

Wednesday, November 14, 1906.

We are within two days of the greatest class event of the year. Every precaution has been taken to secure a successful Field Day, and it only remains for the two under classes to show their appreciation of the efforts which their comrades in the three competing teams have made on their behalf. There is a way to do this, a way which has heretofore always met with the hearty approval of the contestants, and which moreover has the advantage of being both effective and picturesque. What better stimulus to a vigorous contest could be imagined than the conspicuous display of your banner on points of vantage and the shouts of your supporters ringing in your ears. The latter encouragement is assured to the combatants, but it rests with the members of each class to ensure that flags shall not be wanting. To place these emblems in positions where they will flutter defiance to the opposing class, co-operation is necessary, for it is scarcely likely that either class will submit without a protest to the indignity of struggling for the mastery under the insignia of their opponents. Around the Oval nature has generously provided trees to which class flags may be attached, and fences are not wanting on which class numerals may be more indelibly affixed.

The Night Before.

No member of 1908 or 1909 who was out on the night preceding Field Day last year will ever forget the pleasure which he derived from the nocturnal warfare, and there is every reason why the Field should present an equally animated appearance tomorrow night. Strength lies in numbers. The class which sends out the largest delegation is going to secure the strongest and most convenient place from which to make its stand and hang its banners. Let both classes lend every effort toward making this year's pre-Field Day rush the most successful that has yet been held.

Our Advertisers.

A person associated with the business interests of THE TECH has recently received severe criticism at the hands of the managers of a few of the most reputable business houses in this city. The object of all these criticisms was the ever vital appeal for a "square deal." By "square deal," as these men have put it, is meant the exchange of courtesies extended to THE TECH in the way of advertisements, and it can not be more definitely or correctly expressed than it is by this epithet. These men are complaining that they get no returns for their invested money. They say they receive no patronage from Tech students and as a result refuse to renew or expand their present advertisements.

If is a well known fact among newspaper publishers in general that the paper cannot depend upon its circulation alone as a source of revenue, and this fact applies

equally to the case of college papers. Were it not for our advertisers the paper would have a hard time to eke out an existence. The advertisers, as one may know, are not men of charitable inclinations; they advertise as an investment. At first, however they must experiment, and if the results of their experiments in a paper prove fruitless they retire from that paper and brand it with their disapproval.

This management however feels that these men are wrong in some of their opinions. It believes the fault lies in the inability of the ordinary merchant to recognize a Tech student. A merchant may be patronized by hundreds of Tech men and hundreds of Harvard men, or men from any other college, and not distinguish the Tech men from the others; it is to be assumed that the merchants are unable to recognize all of their patrons. On the other hand, they expect and consider it a favor to have a patron make himself known, that is, to have the Tech man pose as a Tech man and openly state the fact to the merchant. This, if tried, will soon prove to be an advantage to the student and an act of courtesy towards the paper in which every man should be vitally interested. This is our manager's way of accounting for the statements of these few merchants, and just to show them that they are wrong in their opinions, he urges the students to make themselves known as Tech men wherever they make any purchases. The large list of advertisers in THE TECH, comprises the most reputable houses of this city, which are certainly patronized very largely by Tech men, and they will consider it a favor if Tech men make themselves known as such. By so doing students will be doing a substantial favor to THE TECH, to *Technique*, and to The Tech Show.

FIELD DAY REGULATIONS

The Tech has received the following communication from the Advisory Council:

No one will be admitted without a ticket or a badge; officials, marshals and competitors will be provided with badges, and competitors will obtain same through the managers of their respective teams.

All officials, marshals and competitors, including managers and coaches of teams are invited to dine at the Union on November 17 at 6.30 P.M.

The following rules must be observed on Field Day by spectators, substitutes, officials, marshals and others:

During the football game, the substitutes, football coach, and officials directly connected with the game will be allowed upon the field, and all others will not be allowed to approach nearer the side lines than the edge of the track, and then only on the North side of the field.

During the relay race, only runners and the officials connected with this particular race will be allowed on the field.

During the tug-of-war, only the teams and officials will be allowed on the field.

At no time will men be allowed between the teams and the spectators in the observation stands, except the four marshals who will be detailed to particularly enforce this rule.

HOCKEY CLUB.

The Hockey Club held a meeting in 22 Rogers yesterday noon and discussed ways and means of getting a rink and also money with which to run a team. The advisory Council has come to the decision that it cannot support both a hockey team and a basketball team, and the former will have to suffer in consequence. The members are determined however to organize a team again especially as challenges have been received from a large number of colleges.

President Pritchett will give the address at the decennial Founder's Day exercises of the Thomas S. Clarkson Memorial School of Technology, Potsdam, N. Y.
